About the artwork

This surrealist painting captures an ethereal moment where nature, mystery, and fantasy converge. At its heart is a serene female figure in a flowing, icy blue gown seated gracefully on a checkered floor. Her face is adorned with a striking mask, hinting at hidden identities or concealed emotions. She is enveloped by a peacock's vibrant feathers, symbolizing beauty, pride, and transformation.

The surrounding forest blends into an otherworldly haze, its soft light contrasting with the bold, colorful blooms and lush greenery that frame the scene. The black & white checkered floor introduces an element of surreal duality, representing the tension between reality and imagination. The delicate roses and organic textures soften the structured environment, while the use of symbolism invites the viewer to explore themes of self-expression, hidden truths, and the harmony of nature and human existence.
