About the artwork

A surreal journey unfolds on the chessboard of imagination. A masked figure, draped in vibrant hues, sits poised between reality and fantasy. Her crown is no ordinary crown; it blossoms into an untamed garden of flowers, fruits, and whispers of hidden worlds. The chess pieces surrounding her stand as guardians of mystery, symbols of power, and echoes of strategy. Between play and poetry, logic and dream, she reigns in silence, inviting us to wonder what move comes next. This piece celebrates duality: strength and softness, intellect and intuition, the mask we wear and the spirit that blooms behind it.
