About the artwork

Nuqta. Acrylic, sand, and gold leaf on canvas. The work draws from the meeting point between Arabic Modernism and the Bauhaus tradition, exploring the origin of form through MMHC's Intuitive Geometry language. Sand and gold leaf are applied in direct contact — the mineral weight of the sand grounding the composition while the gold leaf activates the surface with shifting light. Primary colours punctuate the geometric structure, creating a dialogue between precision and raw materiality. Nuqta was selected as a Top 10 Finalist at the Art Circle Award 2025 and exhibited at the Bassam Freiha Art Foundation during "Story of a Dot."

Medium:	Painting
Materials:	Acrylic on Canvas
Style:	Abstract, Contemporary
Size:	76 × 76 cm
Frame:	Framed
Availability:	Available
Classification:	Unique
Signature:	Signed
